ACTIVITY REPORT 2019-20

Walk With a Scholar (WWS) programme is a new initiative by Higher Education Department, Government of Kerala envisaged to raise the standard of Higher Education Sector to a world class level. It is proposed to arrange specialized mentoring programmes and motivational visits for students in the undergraduate courses, to nurture promising and willing students (mentees) and to provide guidance for their future. This scheme introduces the idea of mentoring and builds on the concept of mentor as a guide and friend. The mentoring is a process where a mentor having greater experience and wisdom guides the mentees to develop both personally and professionally. The WWS scheme aims at giving necessary orientation to needy students, to prepare themselves for employment and give them necessary guidance, motivation and mental support to identify appropriate areas of higher study as well as employment.

WALK WITH A SCHOLAR ACTIVITIES IN NUTSHELL

The activities of WWS for the year 2019-20 were organized at 4 levels in the college.

1. Orientation and student selection
2. Internal Mentoring
3. External Mentoring
4. Procurement and distribution of stationary kit

ORIENTATION AND SELECTION OF MENTEES

WWS started functioning with an orientation programme for all first year UG students of the college. The programme gave them a clear view about WWS, its functioning and its goals. In September 2019 applications were invited from first year students who had scored a minimum of 60% marks in their higher secondary examinations and those with a genuine interest in the programme. After proper screening of the applications a rank list was prepared based on their scores in the Higher Secondary Examinations. First thirty students in the rank list were selected for the programme and the next two were placed in the reserve list. Mentees of second and third year UG batches had selected in the previous years and they continue to be beneficiaries of the programme till the end of their UG course.

INTERNAL MENTORING

Internal mentoring aims at providing opportunities with strong foundations of certain skills, attitudes and competencies. Students were grouped and allotted to internal mentors on the basis of the subject they chose for under graduation and of their specific interests as well. The primary objective of internal mentoring is envisaged to provide the aspirant some customised activities that enhance their learning experience and employability skills. The pedagogy of the programme concentrates on active study techniques that require the students to think and reason for themselves. 15 members of the teaching faculty were selected as mentors for the 90 students based on their willingness to perform the task. Each internal mentor had to mentor 6 mentees allotted to them. A list of internal mentors and the students allotted to them are given below. An induction programme was also conducted for first year mentors in the college itself before starting the internal mentoring classes.
